- KVM UPGRADE: Combine the switch with your existing docking station or a hub to upgrade to a full KVM experience—using just one keyboard, mouse, and monitor. For devices with attached cables, a USB-C® female-to-female adapter is required. Ensure flawless compatibility by using our products.
- WORKS WITH MANY DEVICES: Works with all USB-C® computers and also with Thunderbolt™ devices.
- POWER DELIVERY BETWEEN DEVICES: While the switch needs its own 5V USB-C® input, PD passthrough works between host and dock/display.
